**INTRODUCTION..**

Education does not mean merely to acquire counting or measuring knowledge about the world which lies immediately beyond us. The most important aspect of it is, the transformation of the spirit of human mind in such a way as helps in moulding the human life, enabling him to lead his life not only in a better and nice way but also to show his creative participation in the activity of every social sphere. This has always been the motive of SOCIAL GROUP OF INSTITUTIONS ever since its establishment in Basti Sheikh, Jalandhar. This group has a very good past, excellent present and a bright future.

This is the only institute where the children not only feel the homely atmosphere but also learn the moral values, manners and etiquettes. Our old students have attained distinctions in the sphere of studies, sports and moral activities. We are confident that our team of dedicated teachers would leave no stone unturned to help the students to maintain this glorious tradition.

The institution started its career as a small sapling and now it is fully developed into a big tree, having beautiful branches. It has become the talk of Punjab. Now this institution has stepped in to the field of Management & Information Technology (The affiliation of this college is with Punjab Tech. University). The main branch of Social Group of Institutions is affiliated with the Punjab School Edu. Board up to 10+2. Our Second English medium branch is affiliated with Central Board of Secondary Education (C.B.S.E.). Our third branch Social Convent is situated in Tagore Nagar. Now the Social Group has entered in Distt. Education Program with affiliation of Sikkim Manipal University. The aim of our schools are to educate the young minds to promote moral and spiritual values and also to inculcate love and sacrifice, simple living and high thinking.

## FOUNDER CHAIR PERSON MESSAGE

Dear Students

It had always been the keen desire of Lt. Smt. K.D. Kalia (Founder Chairperson) that the students should strive in the field of education in the best way because now a days with the rising level of competition, it is becoming increasingly difficult to achieve one's goals. Only a well-planned and strategic efforts through proper guidance can achieve success in life. The goal of the school is to create an environment that inspires students to recognize and explore their potential for building up confidence in themselves. The modern age offers immense opportunities to all those who are ready to grab them. One who takes the leap first, emerges the winner. Her words evoke fond remembrance and are always a source of inspiration for all of us.

**Late Smt.  
K.D. KALIA  
FOUNDER  
CHAIRPERSON  
Social  
Group of  
Institutions**

Dear Students

Education, today, has become more career-oriented than ever before. But while it enables the student to cater to the needs of his physical self, it seldom nurtures the finer aspects of his personality. The purpose of education is the efflorescence of the human personality in all its aspects-physical, cognitive, psychic, moral, spiritual and aesthetic. Education is not a matter of dumping information into the human brain but the crystallization of knowledge into wisdom, of wisdom into virtue and virtue into action. With the above guiding principle leading our way. I invite your participation in realizing a dream of making this Nation, a knowledge intensive society. I wish you all the best in your pursuit of excellence in education.

Struggle never goes unrewarded. Sincere attempts always are fruitful. So, keep on struggling till you taste success. Remember slow and steady wins the race. Focus on the target and make continuous efforts to achieve the set goal. Success will kiss your feet when you keep on struggling for it. Wish you a grand success in all the walks of life.

Dear Students,

I envisioned a school for children which will be one of the best in the city. A school which will be a hub of creative activity, where vibrant color, confidence and laughter will be the hallmark, where every child will invest in his/her own growth and the growth of others. A place where the children are happy and smiles abounded and above all, where culture and tradition are imbued along with high standards of academics and sports. Then began the quest to translate this vision into reality. A team of eminent educationists put their minds together to plan and implement.
